COURSE SYLLABUS

Classical Homeopathy in Depth

A Comprehensive One-Year Live Course in Homeopathic Theory, Materia Medica & Repertorization Techniques

Course curriculum

October 2027 to September 2028

October	The Foundations of classical homeopathy	**02**
November	Levels of Health, Predisposition to diseases and Remedy layers	**03**
December	Case-taking and Case analysis	**04**
January	Acute diseases during chronic treatment	**05**
February	Follow-up evaluation and Second prescription	**06**
March	How to study Materia medica effectively	**07**
April	Miasms and their practical application	**08**
May	Management of cases on conventional treatment and excessive aggravation	**09**
June	Posology and potency selection	**10**
September	How to take acute cases successfully	**11**

CLASSICAL HOMEOPATHY IN DEPTH

October 2027

The Foundations of Classical Homeopathy

Theory

- Introduction to Classical Homeopathy and the law of similars
- The only mission of a homeopath
- Health and disease - understanding the difference
- Symptom pattern - types of patterns and their meaning
- The hierarchy of symptoms and the logic behind it
- Keynotes and SRP symptoms, their meaning and importance
- Symptoms underlining
- Rules for symptoms underlining
- Proving of homeopathic remedy and how its final picture is formed
- The aggravation following a homeopathic prescription and its types

Repertorization

- Repertory - the introduction
- The structure of the repertory (Chapters, Rubrics and subrubrics)
- Kent´s repertory, Böeninghausen´s repertory and Synthesis - understanding the difference

Practical work

- Homework: Finding rubrics in the repertory according to the quotes from the patients (to be solved until the next session)
- Q&A Session with students

Materia medica

In-depth remedy studies

Arsenicum album

Phosphorus

Kali carbonicum

Calcarea carbonica

Calcarea phosphorica

Agaricus muscarius

Cocculus indicus

Arum triphyllum

Digitalis

Cactus grandiflorus

Spigelia

CLASSICAL HOMEOPATHY IN DEPTH

November 2027

Levels of Health, Predispositions to diseases and Remedy layers

Theory

- George Vithoulkas's model of the Levels of Health
- The mental, emotional and physical planes and their hierarchy
- 12 levels of health and their importance for homeopathic practice
- The predisposition to diseases
- Direction of cure across physical, emotional and mental levels
- Layers of predisposition and layers of remedies
- The understanding of the term "constitutional remedy"

Repertorization

- Repertory and its reliability
- Checking original sources and references
- Repertory grades and symptom intensity in the patient
- The elimination method of repertorization
- Choosing balanced and reliable elimination rubrics
- Rubric size, incomplete rubrics and the risk of exclusion
- Confirming the final choice through materia medica

Practical work

- Solution of the homework from the previous session
- A new homework: Repertorization using the elimination method (to be solved until the next session)
- Q&A Session with students

Materia medica

In-depth remedy studies

Aurum metallicum

Carcinosinum

Pulsatilla

Silicea

Ignatia

Sepia

Natrum muriaticum

China officinalis

Ferrum metallicum

Iodum

Kali bichromicum

Lac caninum

Ledum palustre

CLASSICAL HOMEOPATHY IN DEPTH

December 2027

Case-taking and Case analysis

Theory

- Introduction to Case-taking and its main goal
- Which information to look for in every case to get a complete picture
- 3 essential stages of Case-taking
- The homeopathic interview step-by-step
- Uppermost symptom pattern
- Identifying the uppermost symptoms
- Why we prescribe for uppermost symptoms
- 5 ways of looking upon a case
- The hierarchy of information in case analysis

Repertorization

- Combining rubrics
- Crossing rubrics

Practical work

- Solution of the homework from the previous session
- Homework: Identifying the uppermost symptoms in a case and reasoning behind it (to be solved until the next session)
- Q&A Session with students

Materia medica

In-depth remedy studies

Causticum

Staphysagria

Lycopodium

Nux vomica

Sulphur

Chelidonium majus

Lilium tigrinum

Lobelia inflata

Mezereum

Petroleum

Calcarea sulphurica

CLASSICAL HOMEOPATHY IN DEPTH

January 2028

Acute diseases during chronic treatment

Theory

- Acute disease during chronic treatment
- Appearance of an acute disease after administration of a remedy in relation to the patient´s Level of Health
- Evaluation of a reaction to a remedy according to the length, type and course of the acute disease

Repertorization

- Balanced and unbalanced repertorization
- The effect of using similar rubrics in a repertorization
- Choosing an alternative rubric when none exactly matches the symptom

Practical work

- Solution of the homework from the previous session
- Homework: Evaluation of a reaction to a remedy according to the length, type and course of the acute disease (to be solved until the next session)
- Q&A Session with students

Materia medica

In-depth remedy studies

Medorrhinum

Lachesis

Argentum nitricum

Rhus toxicodendron

Aconitum

Belladonna

Glonoinum

Eupatorium perfoliatum

Camphora

Lyssinum

Cannabis indica

CLASSICAL HOMEOPATHY IN DEPTH

February 2028

Follow-up evaluation and Second prescription

Theory and practice

- Responses to a homeopathic remedy (22 observations)
- The second prescription - introduction
- When we must prescribe a next remedy
- When we must wait
- How to work with complementary and inimical remedies
- Six rules for successful long-term case management

Repertorization

- Balancing large and small rubrics
- Symptom intensity and weighting in repertorization
- Working with few symptoms and one-sided cases
- Repertorization of acute cases

Practical work

- Solution of the homework from the previous session
- Homework: Second prescription exercises (to be solved until the next session)
- Q&A Session with students

Materia medica

In-depth remedy studies

Hepar sulphur

Nitricum acidum

Thuja

Natrum sulphuricum

Natrum carbonicum

Conium maculatum

Carbo animalis

Carbo vegetabilis

Caladium seguinum

Baptisia tinctoria

Borax

CLASSICAL HOMEOPATHY IN DEPTH

March 2028

How to study materia medica effectively

Theory and practice

- Homeopathic remedy and a patient - understanding the difference
- What it means to "know a remedy"
- What we are looking for in a remedy
- Keynote and its meaning
- How to extract the keynotes of a remedy from materia medica
- Where to get reliable information
- Study of materia medica step by step
- Essence-oriented materia medicas
- Keynotes-oriented materia medicas
- Etiology-oriented materia medicas
- Totality of symptoms-oriented materia medicas
- Physical pathology-oriented materia medicas

Repertorization

- Important tips on how to use the repertory for your materia medica studies

Practical work

- Solution of the homework from the previous session
- Homework: Extract keynotes of a remedy from materia medicas (to be solved until the next session)
- Q&A Session with students

Materia medica

In-depth remedy studies

Phosphoric acid

Picric acid

Muriatic acid

Baryta carbonica

Graphites

Mercurius solubilis

Opium

Helleborus

Spongia tosta

Theridion

Zincum metallicum

Corallium rubrum

Nux moschata

Mercurius corrosivus

CLASSICAL HOMEOPATHY IN DEPTH

April 2028

Miasms and their practical application

Theory

- Introduction to the theory of miasms
- Definition of a miasm
- Miasms and predisposition
- Miasmatic classification of remedies
- Psora and its main features
- Sycosis and its main features
- The tubercular miasm and its main features
- The syphilitic miasm and its main features
- Practical application of miasms: when they are necessary in case analysis and when they are not needed at all

Repertorization

- Techniques for simplifying repertorization
- Common errors in repertorization
- Questions and discussion on repertorization techniques

Practical work

- Solution of the homework from the previous session
- Homework: Solve the case #1 (to be solved until the next session)
- Q&A Session with students

Materia medica

In-depth remedy studies

Psorinum

Tuberculinum bov.

Syphilinum

Hyoscyamus

Stramonium

Tarentula

Capsicum annuum

Anacardium

Bovista

Bromium

Anthracinum

CLASSICAL HOMEOPATHY IN DEPTH

May 2028

Management of cases on conventional treatment and excessive aggravation

Theory and practice

- Management of cases on conventional drugs
- Assessing cases involving ongoing conventional medication
- Risks of withdrawal and the homeopathic physician's role
- Asthma, cardiac conditions, hypertension and epilepsy
- Monitoring progress through symptoms and medical findings
- Principles of potency and dosing in these cases
- Severe aggravation after homeopathic remedy - 5 most common reasons and what to do in each situation

Repertorization

- Techniques for simplifying repertorization

Practical work

- Solution of the homework from the previous session
- Homework: Solve the case #2 (to be solved until the next session)
- Q&A Session with students

Materia medica

In-depth remedy studies

Bryonia alba

Gelsemium

Stannum

Chamomilla

Cina

Magnesia muriatica

Magnesia carbonica

Asarum europaeum

Amylenum nitrosum

Antimonium crudum

CLASSICAL HOMEOPATHY IN DEPTH

June 2028

Posology and potency selection

Theory

- Introduction to posology and potency selection
- When to prefer a single dose and when to repeat it
- When to prefer repeated dose and when to stop it
- The main factors influencing the potency selection

Repertorization

- A closer look at available repertorization software and a comparison of its capabilities and features

Practical work

- Solution of the homework from the previous session
- Homework: Suggest the posology and potency (to be solved until the next session)
- Q&A Session with students

Materia medica

In-depth remedy studies

Asarum europaeum

Aesculus

Alumina

Antimonium crudum

Antimonium tartaricum

Cina

Magnesia muriatica

Plumbum

Platinum metallicum

Veratrum album

CLASSICAL HOMEOPATHY IN DEPTH

September 2028

How to take acute cases successfully

Theory

- Acute vs Chronic Case-taking - understanding the difference
- 4 most common mistakes in Acute Case-taking
- The Böeninghausen´s step-by-step guide, which makes up the complete totality
- Acute or chronic remedy during the acute state

Repertorization

- Review of the repertorization and case analysis topics covered during the year

Certificate of attendance

All participants will get an electronic certificate of attendance from Prague College of Classical Homeopathy.
